Duluth, Jan. 11.—W. J. Bryan has been created a datto.

COLLEGE PRESIDENT ON THE CITY BEAUTIFUL

President A. F. Griffiths of Oahu College yesterday evening addressed the Thursday Club at the Y. M. C. A., on "How to Beautify Honolulu."

Among other things he said:

"I wish to speak of the interest and assistance which the movement has met with in official circles. I have found them more than willing to co-operate, from Governor Carter right down to the park expert, who will be here on the 13th of February next. Mr. Lucas is very anxious to assist Mr. Robinson as far as possible."

"Of those other than officials, the Civic Federation has done good work. They have a special committee for the purpose. Just at the present time, the Promotion Committee is taking great interest so as to have a place that will attract tourists and also cause the tourist who comes here to become an advertising medium for the city when he returns home."

"But the people who live in Honolulu have an interest in having a beautiful city to live in for their own benefit. There is where the greatest interest should center. Our city should not only be beautiful to the eye but also to the nose. The city should be kept cleaned up and in a good sanitary condition."

"We must also look out for unsightly poles on the streets. I counted for about 300 feet on one street in the city and found twenty-five poles on one side of the street and then almost as many more on the other side of the same street. That is about one pole to every ten or fifteen feet. There is only one thing that can be done now in the matter of the poles. That is to get the various companies to use the same pole."

"In such narrow streets as Fort street, the poles could be done away with altogether and the wires supported on brackets attached to the sides of the buildings. This would look much better and remove the danger to pedestrians and those driving from collision with the poles."

YOU'LL BE BURNT UP

PREVENT IT IN TIME.

HOW?

By Equipping Your Houses, Stores, Factories, Hotels, Steamships, Yachts, Suburban Property, &c., with

Stempel Fire Extinguishers

When you need them you need them bad and there is no other machine manufactured which you can rely upon to work properly at that critical moment.

Our QUICK ACTION gives us control of a fire before other makes of machines are fairly in operation. This is the GREAT POINT in the fighting of fire with chemicals.

Approved by the Department of Commerce and Labor, Steamboat Inspection Service—U. S. Government, 1905.
